Build Prompt | Exun 2026-27

Congratulations: you have been selected!
exun.co/extradigitalexceptionsandunknownsnetwork

- Please follow the instructions given below for your respective event.
- The deadline for the submission of the entries can be found at exun.co/26/schedule
- Please join the event groups in our official WhatsApp Community for the submission form link: https://exun.co/26/whatsapp

NOTE: The three events, i.e. Designathon, Hackathon, and Unreality, are separate events. Though they have a common theme surrounding them, their submissions are separately judged and will not influence each other's points. Assets **cannot** overlap between the events.

Designathon

NOTE: Various new stories can be woven through the given theme. Creative ideas will be appreciated. You are allowed to interpret the prompt in any way you like.

You may make anything that aids in your submission. You are expected to submit at least 4 of the following deliverables:

- Storyline to aid your submission **(mandatory)**. The storyline must be incorporated into the pitches for the final round.
- Pitch Deck **(mandatory)**
- Case archive (character logs, evidence board, progress reports, etc.)
- 2D designs (blueprints, posters, illustrations, etc.)
- 3D models (renders, .blend files, blenders)
- Motion design (promotional video, cinematic storytelling, etc.) (Bonus points for self-made audio)
- Any other relevant deliverable

Judgement Criteria

- Creativity
- Originality
- Visual Appeal
- Relevance

Instructions

- Any form of plagiarism and/or the use of AI will result in disqualification.
- The examples provided in the deliverables are merely to stimulate your creativity and do not stand as independent requirements in the submission. You are encouraged to go beyond what is suggested.
- You cannot submit any previously created work for any other competitive purpose.
- The submission must include the .png/.jpeg/.mp4 files of the designs, and any project files & links (.blend, .ai, Figma link, .ae, etc.) with edit access in a single drive link.
- The usage of templating software (e.g. Canva) is **strictly not recommended.**

Hackathon

You are expected to submit two or more of the following deliverables:

- Ideation **(mandatory)**
- Website
- Mobile app
- CLI
- Any other software

Judgement Criteria

- Creativity
- Originality
- Progression of Storyline
- Functionality of the website/application

Instructions

- It is compulsory to attach a pitch deck to your deliverables.
- Any form of plagiarism or use of AI will lead to disqualification.
- You are not allowed to submit any code/software previously created for any other competitive purpose.
- You are required to link a public GitHub/GitLab repo with your code or attach a .zip file with all the deliverables.
- Not necessary, but hosted software submissions are always appreciated!

Unreality

You are expected to submit one or more of the following deliverables:

- A game **(mandatory)**
- Self-made assets (sprites, backgrounds, 3D models)
- Any relevant deliverable

Judgement Criteria

The Gamedev event will be judged on the following basis:

- Creativity
- Originality
- Progression of Storyline
- Audio
- Visuals
- Functionality/Features

Instructions

- Any form of plagiarism and/or the use of AI will result in disqualification.
- You cannot submit any previously created work for any other competitive purpose.
- The submission must include the .png/.jpeg/.mp4/.blend files used, and any project files & links.
- You are required to link a public GitHub/GitLab repo with your code or attach a .zip file with all the deliverables.
