Nano: Hey, pal. Cool if I play after you?

(POI-1 flinches, pulls back from the machine)

POI-1 (with thick accent): Uh, no. It is not working properly.

Mega: Aw, shucks! I was looking forward to playing that!

Nano: What’s wrong with it?

POI-1 (stuttering): Uh, don’t know.

Nano: Well, uh… what are you trying to do then?

POI-1 (stuttering): Uh… **(looking at bare wrist)** Oh! Look at the time! Really must go.

(POI-1 hurriedly leaves.)

Field Observation: Machine reportedly began “warbling” and “reverberating” following the interaction. Agents Nano and Mega are to assigned for further assessment.
